

DPSPR/ACD/CIR/01/2024-25

Dated: 27-03-2024

“You must be the change you wish to see in the world.”

Dear Parents,

We, at Delhi Public School, Panipat Refinery, are excited to welcome the students to the new session of their school. School is an oasis of learning where we are predisposed to achieve a balance between academic excellence and the life outside the realms of scholastic aptitudes. In the 26th year of excellence in education under the aegis of **Delhi Public School Society**, our mantra for success is the focus on student-centred education, with an aim to create opportunities for the students to develop strong foundations for lifelong learning and to excel in their chosen fields. Additionally, we share the vision of the United Nations in promoting inclusive and equitable quality education through the **Sustainable Development Goals** (SDGs).

We are committed to providing the education system where students are facilitated maximum exposures of various skill sets like problem solving, leadership, adaptability, time management, co-scholastic development and many more through Competency Based Learning Curriculum. The following new initiatives that we have planned will certainly contribute to achieving our shared goal.

Accelerated Learning Program

We are planning to support students in taking small steps that will lead to greater feats in the future through the Accelerated Learning Program (ALP) for grades 8 to 12. Our knowledge partner, PACE IIT and Medical, will provide students with Competency Based Education for entrance exams of JEE and NEET.

Counselling

With the aim to balance the socio - emotional quotient of students, the school has planned regular Career Counselling sessions for students to identify their interests and skills for their future studies and career.

Internships

To stand differentiated, students will be trained to identify their interest through internships, which play a pivotal role in shaping their career.

School Portal

The school portal will provide comprehensive information about your child's progress in scholastic and co-scholastic areas. We urge you to regularly visit ERP to know your child's daily attendance and other activities. For all school communications, regularly visit to school ERP and stay updated.

Teaching of Foreign Languages

In the skill driven world, proficiency in foreign languages is an important tool which can make our students globally employable. We are introducing French as a subject and German in activity classes to give our students option to learn and command foreign language to become future ready.

Multi Sports Level

We are planning to have multi sports for the students to augment their three important domains - physical, cognitive and affective. From the coming session each student will be given an opportunity to choose a sport of his/her choice to play during sports class and groom his/her skills in that particular sport.

Environment Friendly Initiatives

School strongly promotes environment friendly activities in its working ethos. Among many, one important initiative is commutation of students to school on bicycle or by walking. We urge you to encourage your wards to use alternative modes of transport instead of motorbikes or cars for commuting to school. Inculcating such a positive habit in children will not only promote clean and healthy environment but keep them physically fit and safe also.

Annual Day & Special Assemblies

Annual Function and Special Assemblies play crucial role in honing the soft skills of the students. We have already taken the initiative and will continue to celebrate all important occasions with an aim to give every student a platform to showcase her/his talent.

Before the commencement of the new session, there will be orientation sessions on 27th March' 24 for Class Prep, to II, 28th March'24 for Class III – V & 30th March'24 for Class IX. Timings for the orientation sessions all three days will be 09:00 am – 10:00 am. The purpose of the sessions is to make the new students familiar & comfortable with the school system.

Also, the school timings for the session 2024-25 are detailed below for your convenience.

SCHOOL TIMINGS (Monday to Friday)	
Classes	Summer Time
Nursery – Sr. Prep	8:40 am to 12:40 pm
Grade I & II	8:40 am to 1:20 pm
Grade III to XII	7:20 am to 1:30 pm

I am sure that our combined efforts will help our children to be the best in every field and that's what we wish for. We are looking forward to your continued help, support and active co-operation.

With warm regards,

Principal
